

EUROPEAN MOBILITY FOR THE FUTURE

STRATEGIC ROADMAPS AND PERFORMANCE ASSESSMENT

The aim of the workshop is to acquire feedback from experts from different mobility sectors on the development of a strategic roadmap for the European transport system (*Action Plan Mobility4EU*) and to discuss the bottlenecks and research needs for this roadmap (*Progress towards EU mobility goals*).

The participants will actively contribute to the development of the Action Plan and the identification of aspects that are important to consider when designing the future European transport system.

MOBILITY4EU

The European Mobility4EU project is an H2020 coordination and support action aimed at developing a vision for a user-centred and cross-modal European transport system in 2030 and an Action Plan including a roadmap for implementing it. To this end stakeholders representing both the supply and the demand side of mobility and transport are interactively engaged.

CAMERA

The H2020 CAMERA project ("Coordination and support Action for Mobility in Europe: Research and Assessment") assesses and reports on the status of (air) transport mobility research and innovation in Europe and its ability to achieve European mobility goals with the final aim to identify current and future gaps and innovation bottlenecks, and thus formulate appropriate recommendations.

BRUSSELS
15 JUNE 2018

Blue Point Brussels

registration is highly recommended.*

EUROPEAN MOBILITY FOR THE FUTURE

STRATEGIC ROADMAPS AND PERFORMANCE ASSESSMENT

10:00 – 10:15 Welcome and introduction to both projects

10:15 – 10:30 Objectives and structure of the workshop

Mobility4EU session “Action Plan Mobility4EU”:

10:30 – 10:50 Introduction to M4EU preliminary action plan

10:50 – 11:50 Rotating participation across three parallel roundtables:

- (1) Technical layers
- (2) Social aspects
- (3) Stakeholder interaction and processes

11:50 – 12:30 Session wrap-up and discussion on the results

12:30 – 13:30 Lunch

CAMERA session “Progress towards EU mobility goals”:

13:30 – 13:50 Introduction to the performance framework: identification of gaps between current transport system and goals in strategic mobility roadmaps

13:50 – 14:50 Rotating participation across three parallel roundtables:

- (1) User needs, services and policies
- (2) Infrastructure
- (3) Mobility performance

14:50 – 15:30 Session wrap-up and discussion on the results

15:30 – 16:00 Wrap-up and final remarks highlighting the synergies in both projects

Key questions addressed in the Mobility4EU session will be:

- Are the major aspects towards a future transport system in Europe addressed in the Action Plan?
- Are user needs and requirements sufficiently included in the Action Plan?
- Do the actions defined in the Action Plan enable and improve cooperation between the different mobility stakeholders?

Key questions addressed in the CAMERA session will be:

- What are the European mobility goals and how can the progress towards these be measured?
- What does a feasible set of key performance indicators (KPIs) look like?
- Are there topics and aspects missing from the current performance framework?
